

MOMF

MOMF conjures up a delightful feeling of tradition thanks to the practical oven housed in the dome.

GENERAL TECHNICAL CHARACTERISTICS

Natural heating distribution

Radiant, conduction and natural convection heating

Heating with Multifuoco System®

Optional forced ventilation kit with 4 speed settings with remote control. Air ducting up to 10 m

Heating forced convection

Optional ventilation kit

Structure

Stove with steel door, grate in cast iron and firebox in Aluker®, support in enamelled steel or marble, optional bench in wood with walnut finish

Majolica cladding

Unique large hand-made pieces

Oven

Interior in stainless steel and refractory material, grid and thermometer

Air Glass System

Self-cleaning ceramic glass resistant up to 750°C

Easy Cleaning

Quick and easy maintenance, removable ash drawer

Safety devices

Automatically closing door. Brass handle with silicon grip

TECHNICAL DRAWING

TECHNICAL DATA

Room heating capacity (min-max)	m ³	170 - 290
Nominal thermal efficiency	%	74,0
Rated heat output	kW	10,0
Consumption at rated heat output	Kg/h	3,3
Maximum heat output	kW	13,7
Maximum consumption		4,2
Dimensions WxDxH	cm	90 x 60 x 152
Cladding		maiolica
Front		maiolica
Firebox		acciaio
Primary and secondary air		regolabile
Air combustion kit		optional
Firebox		Aluker
Brazier		ghisa
Flue outlet Ø	cm	15 superiore
Ash drawer		estraibile
Door		acciaio
Ceramic glass		resistente a 750°C autopulente
Door handle		ottone con materiale silicónico
Wellness -umidifier in stainless steel		no
Oven in stainless steel (LxWxH)	cm	50 x 36 x 23
Multifuoco System®		optional
Front air vents-orientable		si/si
Forced Convection kit		no

The availability of models may vary from Country to Country.
