### GENERAL TECHNICAL CHARACTERISTICS

#### Multifuoco System Plus

Optional forced ventilation kit with four electronic controlled power levels and LCD remote control.

Warm air ducting up to 10 m

#### Heating with Multifuoco System®

Optional four speed forced ventilation kit with remote control.

Warm air ducting up to 10 m

#### Natural heating distribution

Radiant, conduction and natural convection heating

#### Tertiary air system

Optimizes combustion and ensures high efficiency with low emission into the atmosphere

#### Air Glass System

Self-cleaning ceramic glass resistant up to 750°C

#### Easy Cleaning

Quick and easy maintenance, removable ash drawer

#### Wide screen fire

Wide vision of the fire to provide the right feeling

#### Majolica cladding

Unique large hand-made pieces

### TECHNICAL DATA

Room heating capacity (min-max)	m <sup>3</sup>	120 - 200
Nominal thermal efficiency	%	80,1
Rated heat output	kW	07
Consumption at rated heat output	Kg/h	1,9
Maximum heat output	kW	9,0
Maximum consumption		3,2
Dimensions WxDxH	cm	59,5x47x121
Cladding		majolica
Front		-
Firebox		enamelled steel
Primary and secondary air		adjustable
Air combustion kit		no
Firebox		Aluker®
Brazier		cast iron
Flue outlet Ø	cm	15
Ash drawer		removable
Door		steel
Ceramic glass		self-cleaning resistant up to 750°C
Door handle		hide away and detachable
Wellness -umidifier in stainless steel		no
Oven in stainless steel (LxWxH)	cm	no
Multifuoco System®		optional. 4 levels
Front air vents-orientable		no
Forced Convection kit		no
Total weight	Kg
