

## P966 THERMO ACS

This enamelled steel clad stove with high thermal output is used for space heating and to produce domestic hot water.

Terra d'Oriente

Nero Opaco

Bianco Meringa

Bordeaux

### GENERAL TECHNICAL CHARACTERISTICS

#### Heating

Production of hot water for the heating system or to integrate the existing water heating system

#### Kit DHW - Domestic Hot Water

Istant heat exchanger for domestic hot water

#### Multifunction display

Digital controls for ignition, shutdown, programming the timer thermostat and setting the water temperature

#### Programming

Daily with dual time settings

#### Structure

Stove body, brazier and boiler in steel, firebox in Aluker® and steel, door in cast iron. Closed expansion tank, water pump and standard safety devices

#### Cladding

Enamelled steel with majolica inserts

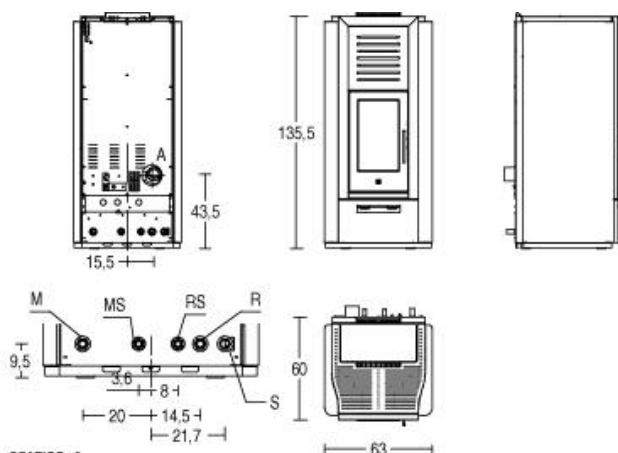

#### Air Glass System

Self-cleaning ceramic glass resistant up to 750°C

#### Easy Cleaning

Quick and easy maintenance, removable ash drawer

### TECHNICAL DATA

Rated heat output (min-max)	kW	9,0 - 28,5
Heat output to the water (min-max)	kW	7,0 - 23,5
Power adjustable (positions)		5
Nominal thermal efficiency (min-max)	%	90,0 - 92,0
Consumption at rated heat output (min-max)	Kg/h	1,9 - 6,0
Dimensions WxDxH	cm	63 x 60 x 135,5
Cladding/front		maiolica/acciaio verniciato
Firebox		acciaio
Baffle plate		acciaio
Firebox		Aluker
Brazier		acciaio
Flue outlet Ø	cm	8
Boiler		acciaio
Circulation pump and safeties		di serie
Expansion tank		chiuso
Sanitary hot water kit		di serie
Ash drawer		estraibile
Door		ghisa
Ceramic glass		resistente a 750°C autopulente
Door handle		acciaio con finitura nichelata
Hopper capacity		52
Stove control panel		a comandi digitali
Timer -thermostat with programming		giornaliera con due fasce orarie
Minimum power consumption	Watt	130
Maximum power consumption	Watt	430
Total weight	Kg	270

The availability of models may vary from Country to Country.
